

Creative Media FINAL PROJECT 2012

Use all 3 types of media we've studied this semester (music/GarageBand, video/iMovie, digital photography) to create a presentation based on one of the following.

10 Commandments - Josh Young **MOVIE**

Creation - Genesis 1:1 - 2:3 Patrick, CJ **KEYNOTE**

We'll have time in class to learn how to do a basic presentation in Keynote.

You must cite any material you use that is not your own creative work. This includes Bible references, iMovie or Garage Band sounds, images and fonts not installed as part of the original operating system. (CJ/Patrick - include links at the end that take you to the original source)

Nearly all of the work should be your own. (CJ/Patrick - you may use photographs from the internet, the movies and music or sound effects must be yours.)

This will be graded on a rubric and is worth 100 points as a project grade (40%).

This is due Friday, June 8th. Each day late drops your grade by 5% or 1/2 a letter grade (A- becomes a B+)

We will share presentations the following week.

GRADING

30 pts - 10 pts each original audio (music/sounds), original video, original photos.
(5pts) for found audio, found photos.

30 pts - Bible content - max points for complete coverage of topic

10 pts - Citations Josh - Works Cited, CJ/Patrick - links to original sources

20 pts - Scripture - accurate and complete message

10 pts - Presentation - consistent theme, attractive, no distractions

100 points possible PROJECT grade

Projects count as 40% of your grade
